PROFILE SUMMARY

I am Surya Maulana Nugroho, an undergraduate student in Telecommunications Engineering with a strong interest in computer networking, system administration, and network monitoring. I have hands-on experience in networking, server management, and infrastructure operations through roles as a practicum assistant, mentor, and infrastructure staff. I am eager to build a career in networking and IT infrastructure while continuously improving my technical and problem-solving skills.

EDUCATION

Telkom University – Bandung, Indonesia **Sep 2023 - present**

Bachelor of Telecommunication Engineering

- GPA: 3.49/4.00 (99 Credits)
- Relevant courses: Computer Networking, Data Communication, Network Routing and Switching, Linux Systems, Network Security, Quality of Service (QoS), Cloud Computing.

PROFESSIONAL EXPERIENCE

Adaptive Network Laboratory – Bandung, Indonesia.

Practicum Assistant **Oct 2025 – Present**

- Assisted in practical sessions on data communication concepts and transmission media.
- Guided students in static and dynamic routing configuration at the network layer.
- Supported Linux introduction and implementation of network services at the transport layer.
- Facilitated the design, simulation, and analysis of Quality of Service (QoS) in centralized network systems.

Head of Infrastructure Sub-division

Jun 2026 – Present

- Led and coordinated the General Affair Infrastructure sub-division in managing the laboratory network infrastructure.
- Supervised server monitoring, maintenance, and hosting operations for the Adaptive Network Laboratory.
- Coordinated with other divisions to ensure infrastructure reliability and support overall laboratory operations.

Member, Infrastructure Sub-division

Oct 2025 – Jun 2026

- Managed and maintained the laboratory network infrastructure.
- Monitored and performed maintenance on servers to ensure system reliability and performance.
- Managed website hosting and server services for the Adaptive Network Laboratory.

Adaptive Training | Mentor

May 2026

- Conducted hands-on workshops on system monitoring and observability.
- Guided participants in configuring dashboards and alerts using Grafana and Prometheus.
- Introduced log management and visualization using the Elastic Stack (ELK).

Netschool 2025 | Mentor

Oct 2025 - Dec 2025

- Guided group members in understanding networking concepts and configurations.
- Taught VLSM subnetting, switching, static and dynamic routing, VLAN, and Inter-VLAN routing.
- Assisted participants in troubleshooting basic network configuration issues.

Netschool 2024 | Apprenticeship

Oct 2024 - Dec 2024

- Learned and applied networking concepts including VLSM subnetting, routing, switching, VLAN, and Inter-VLAN routing.
- Practiced Linux system administration tasks such as SSH access, service management, process signaling, and Bash scripting.
- Configured network services including DNS server and web server (Apache2 and NGINX) with HTTPS support.
- Developed basic Python programming skills including control structures, functions, and object-oriented programming (OOP).

Multimedia, Big Data, And Cyber Security Laboratory – Bandung, Indonesia.

Digital Learning 2025

Apr 2025 - May 2025

- Participated in a study group covering Cyber Security, Big Data, Geographic Information Systems (GIS), and Game Technology.
- Developed foundational skills in Capture the Flag (CTF) challenges, data visualization, Unity development, and basic game design.

ORGANIZATION EXPERIENCE

Central Computer Improvement – Bandung, Indonesia.

Network Division

Dec 2023 - Dec 2024

- Learn Assisted in learning and implementing basic network infrastructure concepts including subnetting, routing, and switching.
- Supported troubleshooting and maintenance of network configurations.
- Developed foundational knowledge of network design and infrastructure

Dorm Team – Bandung, Indonesia.

Member

Nov 2023 - Jun 2024

- Assisted in managing dormitory operations and supporting student activities.
- Coordinated and organized dormitory events and administrative tasks.

CERTIFICATIONS

- **Huawei Certified ICT Associate (HCIA) – Cloud Computing V5.5**
- **Huawei Certified ICT Associate (HCIA) – Cloud Service V3.5**
- **Huawei Certified ICT Associate (HCIA) – Datacom V1.0**
- **Cisco Certified Network Associate (CCNA) – Introduction to Networks**

SKILLS

Language : Native Indonesia, Intermediate English

Softskill : Problem Solving, Collaborative Teamwork, Time Management, Communication.

Software : Microsoft Office, Linux, Cisco Packet Tracer, Proxmox, Grafana, Prometheus

Hardskill : Computer Networking, Linux System Administration, Server Management.
